## Rules and what to's

### Getting around in Tabletopia

When you have joined the game, you will see the board floating in space.

#### Board logistics (For PC's)

- Tilt board: press right click on your mouse and drag board while pressing, this will allow you to tilt the board
- Move board around: left click and drag on the board lets you move the board around - you can also do this using the the arrow keys) on your keyboard
- Zoom in/out: If you have a roller on your mouse, it zooms in and out or click on + and - on your keyboard
- You can save your current view by pressing shift (1..9) Then, when you've moved the board around, press (1..9) to go back to that view.
- If you tilt too much, some pieces might disappear. Flatten the board out to make them appear again.
- There is an excellent help system in Tabletopia to help you navigate around the board once you are in the game.

#### Dice

You roll the dice by highlighting the dice and pressing R or right click and select roll

#### Blue Pearl

Hover the mouse over the blue pearl when you win one, drag it towards your designated bag. The bag will open up for you to drop it in.

#### Pieces

When you select your piece, point at it with your mouse. WAIT for it to be highlighted, then click and move. It will glow when highlighted.

## Cards

There are 4 types of cards:

**Guru**, **Baba**, **Om** and **Jnanam** cards. Some cards will give you the chapter, page and paragraph to help you with the answer.

Others ask for explanations

<p>Play of Consciousness The World of Omniscience</p> <p>What did Baba tell Siddha Students? ed.2 p 145.2 ed.3 p 169.1</p> <p><b>Read and Explain for 1 blue pearl</b></p>	<p>Title of book Chapter of book</p> <p>Question</p> <p>Page references</p>	<p>Five Pure Tattvas Tattva 5</p> <p><b>Śuddhavidyā</b></p> <p><b>Read and Explain for 1 blue pearl</b></p>	<p>Philosophy</p> <p>Explain the word (lookup online)</p>
--	---	---	---

When you select a card, drag it first to the “place card here” pile, then double click to read the card. Click somewhere else to hide the card.

If you move the whole deck of cards (**oops**). That means the whole deck was selected not the individual card. In that case:

- Highlight the deck again. If it's glowing, it's highlighted. If not, left click the deck once to highlight it
- Click again and drag the deck back to where it belongs

## To Win the game

When the first person gets to the big blue pearl in the middle of the board, count your pearls. The person with the most Blue Pearls wins the game.

## How to play

- 1) Determine who goes first, roll the dice. You roll the dice by moving the mouse to it and either press the letter r or left click and select roll dice
- 2) You can use the Zoom and Move keys (or mouse) to better view the gameboard.
- 3) If you land on an occupied spot, you give that person(s) a blue pearl. If you move the mouse to your blue pearl bag and right click you can take blue pearls out.
- 4) When you earn a blue pearl, grab one from the stack and drop in your bag. When you drag a blue pearl onto the bag, the top of the bag opens. Then you can drop the blue pearl into your bag
- 5) When you draw a card. Move the mouse to the right color card stack and left click and drag the card to the used card pile. Double click the card to see it (others can also double click). There are two options on the cards:
  - a) You read the card aloud and answer the question. When others agree, you earn 1 blue pearl.
  - b) You pick someone else to read the card, then you answer. Again, agreement earns 1 blue pearl.
- 6) After you have viewed a card, click anywhere else to hide the card.
- 7) The person who started the game can reset / restart the game with the menu in the upper left corner of the screen.
